

ANSWER TO NOTICE OF INTENTION TO RECALL

Sascha Vogt, Governing Board Member
Twin Rivers Unified School District - Trustee Area 7

When I took the oath of office, I accepted a sacred duty to listen to students, families, educators, employees and community members, consider diverse perspectives, ask questions and provide transparent, ethical stewardship.

Throughout my service, I have remained accessible, present and available to the community that elected me and to district stakeholders, including students, families, educators and staff.

Contrary to allegations, I met with educators, employees and TRUE leadership to listen to concerns and answer questions. During bargaining and throughout the strike, I remained available to all stakeholders and continued communicating with educators, employees and community members. I declined only private meetings with individuals sitting directly at the bargaining table to discuss contract articles then being negotiated, to avoid bargaining outside the established process and to protect all parties and the integrity of that process.

Board actions referenced in the Notice followed stakeholder input, public deliberation and votes taken in public. I considered input and voted consistently with my oath of office.

I was elected to serve the entire community, and I remain available, accountable and committed to that service.

Before you sign a recall petition or vote to recall me, please look at my record.
